## What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 10 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions could impact the capacity of Kingston Unity Friendly Society Limited to pay you. You are guaranteed to be provided your sum invested plus bonuses to date on the 10<sup>th</sup> anniversary of your account and every subsequent 5<sup>th</sup> anniversary after that. These are classed as MVR free dates, at all other dates an MVR may be applied, but will depend upon the circumstances at the time of cashing in the ISA.

### Performance Scenarios

The table below shows the money you could get back over the next 10 years, under different scenarios, assuming that you invest £1,000 each year. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get back will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product.

Investment: £1,000 (each year) Scenarios		1 Year	5 years	10 Years Recommended holding period
Stress scenario	What you might get back after costs (£)	£950	£4,500	£10,102

### What happens if Kingston Unity Friendly Society Limited is unable to pay out?

The Society is covered by the Financial Services Compensation Scheme (FSCS). If we cannot meet our obligations, you may be entitled to compensation from the scheme. Circumstances vary, but most types of investment business are covered up to £50,000. Further information about compensation arrangements is available from the FSCS website [www.fscs.org.uk](http://www.fscs.org.uk) or by calling 0800 678 1100.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest £1,000 each year. The figures are estimates and may change in the future.

Investment: £1,000 (each year) Scenarios	If you cash in after 1 Year	If you cash in after 5 Years	If you cash in after 10 Years
Total costs (£)	£0	£291	£1,391

## How long should I hold it and can I take money out early?

### Recommended holding period: 10 years

The recommended holding period has been selected to enable investors to benefit from long term growth whilst avoiding short term volatility.

Partial withdrawals of £500 or more or full encashment can be made at any time. Depending on the investment returns at the time then a Market Value Reduction (MVR) may be applied. We guarantee not to apply an MVR if you choose to cash in or make withdrawals on the 10th anniversary of starting the ISA and every subsequent 5<sup>th</sup> anniversary after that.
